made & the estimate reduced to Rs 5,173.
The original amount being Rs 5523, re-

20) As regards the 2nd point whether
a revision of the rates was necessary,
the Exe: Engr states that as the estimate
was prepared in June 1919 and sanctd
in August 22, the revision of rates
has become necessary on account of
the present rise in rates both for labour

Bangalore.

Sir,

With reference to the observations made by the Dewan in his notes of inspection of the Kadur District about the renovation of the Kalasa temple buildings, I have the honor to state that it is observed from some miscellaneous papers available in this office that in about February 1913, the Executive Engineer of the Kadur Division forwarded estimates aggregating Rs.32,000/- and odd for the repairs of the temple of Sri Kalaseswaraswami and other institutions subordinate to it and that these estimates were after - scrutiny by the late Mr. C.V. Kasipathi Sastry, Assistant Engineer, reduced to Rs.25,000/- and odd. The modified estimates seem to have been forwarded to the Executive Engineer for an expression of his views on the suggestions of the Assistant Engineer and further information as to how the matter was finally disposed of is not ascertainable.

2. I therefore request to be informed as to whether the modified estimate was subsequently sanctioned by Government and the amount of the sanctioned estimates placed at the disposal of the Public Works Department. A set of Government orders pertaining to the subject of repairs may kindly be sent for future reference.

Letter No.222 dated the 25th September 1923, from the Executive Engineer, Kadur Division, Chickmagalur, to the Chief Engineer of Mysore, Roads and Buildings, Bangalore.

With reference to your Memo No.4356 dated 12th September 1923 calling for report whether the renovation of the Kalasa Temple building has been completed, I have the honour to inform you that the Superintending Engineer, while communicating the sanction to items and ordered that such items should be eliminated. As this question was not decided, nothing was done last year, and the delay in taking up the work is reported to be due to:-

(1) The remote situation of Kalasa.
(2) The low rates for most of the items in the estimate.
(3) The necessity of consulting Dharmadarsis as to what alterations are necessary.

I inspected this temple with the Deputy Commissioner and the Assistant Engineer on 4th September 1923 and have issued definite instructions to revise the estimate which is expected to be ready in a week. I shall submit the same to you on receipt and take up the work immediately after your accord approval to the same.

Sir,

With reference to your letter No. B. 3065 & 30-11-23 forwarding a revised estimate for Rs 5523 for the renovation of the Kalasa temple buildings, I am directed to point out that the Establishment, Tools and Plant charges at 18% included in the estimate seem to be excessive. ~~Muzrai~~ All muzrai works have all along been treated as Contribution works and charged only

10½ % for Establishment, Tools and Plant. In the case of repairs to the Sri Veerabhadradevaru temple at Bhilar, Hornali Taluk, the charge for establishment, tools and plant was recently sanctioned at 10½ % vide G O No. 795-6/Mys 72-23-3 dated 6-12-23, a copy of which is forwarded herewith for ~~perusal~~ reference.

I am, therefore, to request you to explain why 18 % has been charged ~~vide~~ in the case in point.

The original estimate for Rs 4,630 was sanctioned ~~a~~ one year and four months back and ~~in the previous estimate~~ it is not clear whether a revision of the rates resulting in an excess charge of Rs 862 is quite called for.

Sir,

With reference to your letter No.955/Muz.55-23-8 dated the 12th January 1924 enquiring why 18 per cent has been charged towards Establishment and Tools and Plant charges for the work of renovation of the Sri Kalleswaraswami temple at Kalasa, I have the honour to inform you that this charge was made by the Executive Engineer, Kadur Division, while preparing the revised estimate for the work through oversight. Necessary corrections have now been made and the estimate amounts is reduced to Rs 5,173/-.

2. As regards the necessity for the revision of the estimate within a period of 16 months. I have to state that the original estimate for the work was prepared by the Assistant Engineer, Muzrai Department in June 1919. After some correspondence, the estimate was sanctioned for Rs 4,630/- in C.O. o.586-8/Muz.145-17-8 dated the 1st August 1922. On account of the present rise in rates both for labour and materials and the town having been situated in a remote corner of the District and materials required for the building having had to be transported mostly from Chikmagalur, the Executive Engineer reports that no contractors --

are prepared to take up the work at the sanctioned rates. Considering all those difficulties, I am of opinion that the --- rates now proposed may be sanctioned. No work has been done so far. Arrangements to start the work will be made after orders on the revised estimate are received-
